EDUCATION

Integrated Master of Computer Application

Saintgits College of Engineering
2026
CGPA 8.42

Higher Secondary

St mary's HSS
07/2019 – 04/2021
Percentage: 98%

Secondary Education (Class 10th)

St Mary's English Medium school
06/2018 – 05/2019
Percentage: 92.8%

COURSES

Android app using Kotlin

Spoken Tutorial
01/2025 – 02/2025

Web Applications Technologies and Django

Coursera
03/2024 – 04/2024

Android App Development

Coursera
10/2022 – 11/2022

CAREER OBJECTIVE

Aspiring Full Stack Developer with a strong foundation in computer science and experience in web and mobile application development. Proficient in React.js, Node.js, Express, MongoDB, MySQL, and RESTful APIs, with hands-on knowledge of Git and deployment tools. Currently pursuing an Integrated MCA and eager to apply technical skills in full-stack development projects.

INTERNSHIPS

Polus Solutions

Software Developer Intern

12/2025 – Present | Trivandrum

- Worked as a Full Stack Developer with a strong focus on backend development, designing and implementing RESTful APIs using Node.js and Express.js
- Built and maintained end-to-end MERN stack applications, handling server-side logic, API integration, and database interactions
- Currently upskilling in Angular, building small projects to understand component-based architecture, routing, services, and API consumption

JITTech Solutions

Backend Development Intern

05/2025 – 06/2025 | Trivandrum

- Built RESTful APIs using Node.js and Express.js for web-based applications.
- Integrated and managed MongoDB databases for scalable backend operations.
- Gained hands-on experience in full-stack development and deployment workflows.

Sristi Innovative Computer Systems

AI/ML Intern

06/2024 – 07/2024 | Trivandrum

- Worked with Python and AI/ML concepts.
- Gained exposure to deploying AI-driven features into web-based platforms

Nest Digital

Data Science Intern

08/2025 – 09/2025 | Ernakulam

- Completed an internship focused on Data Science and Data Analytics fundamentals
- Worked with Power BI to design and build interactive dashboards for data visualization and insights

CORE SKILLS

Web Development

MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful APIs, Responsive UI Design

Mobile Development

Flutter, Dart, Android Application Development

Version Control & Collaboration

Git, GitHub, Agile Team Practices

Data & Analytics

Power BI, Data Visualization, Dashboard Creation

PROJECTS

Mental Health Clinic System

05/2025 – 06/2025

- Built a Mental Health Clinic Management System using the MERN stack, enabling efficient appointment scheduling, patient record management, and doctor-patient interactions.
- Worked in a team to integrate database functionality with MongoDB and maintain version control using Git/GitHub

Emergency Support System

07/2024 – 10/2024

- Developed an Emergency Support System, an Android application built using Flutter and Dart, designed to provide quick access to emergency services.
- Focused on building a responsive and reliable mobile interface with smooth navigation and real-time functionality.

Intelligent Document Analyzer

07/2025 – 10/2025

- Developed an Intelligent Document Analyzer using Python and Machine Learning, capable of extracting content, generating summaries, answering queries, and performing grammar corrections.
- Utilized ML models and NLP techniques to enhance accuracy, while ensuring modular and scalable code
